

## **Line NVR 32 H.265 2xGbLAN Description**

Line NVR 32 H.265 2xGbLAN is based on the server side of Line Linux and is designed to connect up to 32 IP cameras; licenses included.

The system supports IP-cameras of various well-known manufacturers; follow the link to see the supported cameras list.

There is space in the case for up to four 3.5" hard drives for total storage space of up to 48 terabytes.

The Line NVR 32 H.265 2xGbLAN case can be mounted in a 19" rack (mounting brackets included).

Local interface allows using all features of the Line video surveillance system, including 21 intelligent modules, without installing the program on a PC.
